---

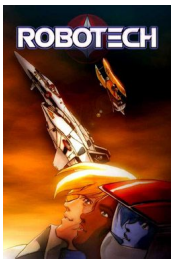

This is a quick tutorial to get you started with your Roboblog.

**Bold**, underline, *italic* and so on. . .

Just some of the formatting available through the toolbar.

Select appropriate category. This is a Roboblog, so we place under Roboblogs and tag it as well.

Now let's upload an image. We simply single-click the image to place in body of blog.

Yes, just as simple as that.

That should be enough for now to get you started.
