Ok...So I saw Avatar, and its going to top Titanic in sales...The story wasnt all that but the Grafx
OMG!!! I mean come on Battloids and Smurfs on Steriods?? Who knew????

Now what if and this is what if...Cameron and RLAM?? With the same budget as Avatar, and I
think that the Macross Storyline is just a tad better than Avatar's...so whats the problem?? I
mean everyone already saw robots and giant aliens, I mean this is win win...If people loved
Avatar...they will be GAGA over RLAM, and RT has a better story.

Now I know Hollyweird will not see it that way, cuz its a Japanese thing but I dont see the
difference of 9ft tall Smurfs and 60' tall Humanoids.

Just a bug in someones ear...hehehe
