A year or two back, Tana Sarnt, myself and our film crew set out to make one of the first live action Robotech fan films. Although we had professional actors, top notch camera gear and the fact that all of the live action footage did get shot, the project fell apart. However I would like to show off some of the fx shots that were made, in addition to some other shots I have been toying with.

Here is the link: <http://www.youtube.com/user/timescapeent>

Enjoy.
