Yet another slow day. I'm collecting video segments for my next video, but it's slow going as i don't have all myDVDs anymore. I thought I would do something along the lines of &quot;Uncle Sam Wants You&quot; sort of thing, but RDF style LOL. It occurs to me that the Armed forces on teh SDF-1 MUST have had an ad campaign to gather recruits. I've got some patriotic music and it's all down to getting my video shorts together. At any rate it won't be a music video at least LOL.

I'm aslo serching everywhere for the missing parts from my Fanfic, the ones that i had written last that were NOT included in my post here. My sister had actually drawn up some characters for my story. I would upload it right now but guess what? I'm running Windows Vista and my HP ScanJet isn't compatible. Go figure. So I'll have to do it the hard way LOL! I thought Vista was supposed to be super-backwards compatible? Promises.....
